

SAINT ARCHER GOLD AATMF

Saint Archer Gold is a Ultimate Light Lager that is flavorful, refreshing, and brewed with only 95 calories and 2.6 carbs

Apppearance: Brilliantly clear, golden color with a sturdy, egg-shell-white foam.

Aroma: Soft, floral hop character—reminiscent of dried wild flowers and perfumey herbs—gives way to malt notes of bread.

Taste: Extremely well-balanced with just enough delicate bitterness to offset the malt sweetness. Refreshing and characterful.

Mouthfeel: Light on the palate with spritzy carbonation. Saint Archer Gold's effervescence carries the expressive, yet understated, hop aromatics.

Finish: Balanced and supremely drinkable. Saint Archer Gold delivers on the desired flavor intensity of a craft lager while remaining a light and sessionable low-calorie/low-carb beer.
