HISTORY For centuries man has taken naturally grown grapes from the rich and fertile soils and created wines in natural ways handed down over generations. Today Art of Earth wines are still created in the same way – from carefully selected organic grapes, harvested in traditional ways and then turned into organic wines with centuries-old natural winemaking methods. The love and passion with which this is done, produces unique, gentle wines bursting with natural flavors – true pieces of art from mother earth.

WINEMAKING Harvest: Manual, in boxes of 18 kgs. Traditional vinification in stainless steel tanks. Alcoholic and malolactic fermentation with selected yeasts under controlled temperature from mother earth.

TASTING NOTES & FOOD PAIRINGS This fruit forward Malbec has an intensive ruby color. The bouquet is an exquisite combination of plums and red fruits, with spice notes. On the palate it has a silky entry, with firm tannins and long finish. Serve with strong-flavored foods, beef, lasagna, pastas and meat dishes. Serving Temperature: 18-20°C
