

BREWERS BATCH

VIRGINIA - HIGHLAND WHISKY

Virginia Distillery Company's Brewers Batch Virginia-Highland Whisky is a series that showcases the impact of beer finishing on whisky.

The distillery gives whisky casks to local breweries, who use them in the creation of whisky aged beers. The distillery takes these casks back and fills them with whisky. This finishing process typically takes about twelve months, with the resulting flavor based on the influence of the beer that was in the casks previously. Tasting nuances include notes of dark chocolate, biscuit, vanilla, toffee and pecan.

46% alcohol by volume
