ORGANIC TEQUILA SELTZER

getfreshie.com

THE WORLD'S FIRST ORGANIC TEQUILA SELTZER

freshie™ combines great taste with all Organic ingredients. We don't round corners for a quick buzz. Our Organic & Non GMO agave takes 7 years to mature before it is sustainably farmed and distilled using 100% solar energy. The result is superior refreshment featuring citrus notes from our Organic Silver Tequila combined with Sparkling Water, Organic Lime and Organic Agave Nectar.

Freshie began in 2016 with one family and a deep love for tequila. After a week in Mexico, and far too many sugary margaritas, Paige and Ryne Inseminger were tasked with crafting a drink that could keep their family drinking. Ryne reached for the only ingredients left in their fridge: Limes, Tequila, Agave and Sparkling Water. It was love at first sip.
