WHAT MAKES BLACKENED DIFFERENT?

BLACKENED® Whiskey was envisioned by Metallica and Founding Master Distiller Dave Pickerell. It is now crafted and propelled onward by category disruptor and Master Distiller and Blender Rob Dietrich.

BLACK NOISE SONIC- ENHANCEMENT

BLACKENED sonically-enhances their whiskeys to extract more flavor from the finishing casks, using a patent-pending scientific process co-developed with the engineers at Meyer Sound. BLACK NOISE™ is a sonic-enhancement process that produces low hertz sound waves causing the whiskey to reverberate at a fast rate, interacting with the oak staves of the barrel, measurably releasing wood compounds and flavors like toasted coconut, vanilla, butterscotch, and caramel.

REMASTERED AND CASK FINISHED

Remastering a song means using new production capabilities to remove flaws for a cleaner, sharper, more refined listening experience. That's just what BLACKENED has done with whiskey. Remastering whiskey means layering flavors during blending and enhancing the base through cask-finishing while using our BLACK NOISE sonic-enhancement process.

CREATED WITH METALLICA'S STANDARDS

Metallica approached whiskey-making the same way they've always approached music. They push to create something original and better. They work only with the kind of collaborators who share their uncompromising commitment to quality. And they pour their souls into it day after day until they've made something that's truly special.

The Original BLACKENED

A BLEND OF STRAIGHT WHISKEYS FINISHED IN BLACK BRANDY CASKS

A blend of the finest North American straight bourbon and rye whiskeys, finished & sonically-enhanced in brandy casks. The components of the blend vary in age but are a minimum of 4 years or more.

TASTING NOTES

Nose: Burnt caramel, oak & honey

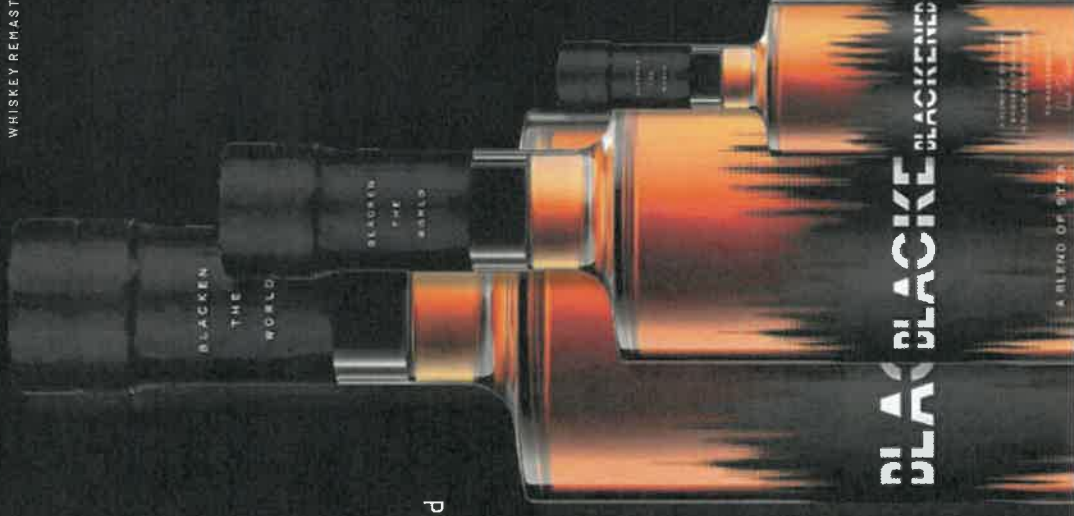

Palate: Honey, cinnamon, allspice, dark fruit, clove & mint

Finish: Long and smooth, slightly creamy with hints of butterscotch taffy, maple & honey

WILLET

KENTUCKY STRAIGHT RYE WHISKEY FINISHED IN MADEIRA CASKS

The BLACKENED x Willett Kentucky Straight Rye Whiskey was the inaugural release in this series. It starts with a base of low rye and high rye whiskey recipes that were hand-picked by BLACKENED Master Distiller & Blender, Rob Dietrich and Willett Distillery's Master Distiller, Drew Kulsveen, from the Willett Family Estate Reserve Selection. The straight rye whiskey is finished in Madeira casks, adding a layer of nuanced complexity. To extract even more flavor, the whiskey was applied with the proprietary BLACK NOISE™ sonic-enhancement process during the finishing phase. This expression features whiskey that is an average age of 6 and a 1/2 years, and is bottled at cask strength, and non-chill filtered.

Nose – Sweet rhubarb, brown sugar, corn husk, cigar box & vanilla

Palate – Buttery caramel, earthy mint & fresh-cut hay

Finish – Vanilla, cinnamon butter & dark walnut
