

A DELICIOUS, EASY-DRINKING SHOT

## THE BEST OF BOTH COFFEE & WHISKEY

Kentucky Coffee is made for a mindset, reaching the young (and the young at heart), guys, gals, all genders, horseback and motorcycle riders. It's for people who have a welcoming and adventurous spirit, leaving an impression on all they encounter. They go all in and follow their passions but they never go it alone, always bringing their friends along for a wild ride. They are the ones who rally the troops and get everyone together for Happy Hour, backyard hangs, the big game or a big night out. They don't need a reason to celebrate, they just want to have fun.
