

Teremana Tequila is crafted in the small Mexican town of Jesus Maria, amidst the highest peaks of the Jalisco Highlands. Every step of our tequila-making process is meticulously carried out to create an exceptional quality tequila that truly honors the land it comes from.

## THE ABC'S OF TEREMANA TEQUILA 100% MATURE BLUE WEBER AGAVE

- We use only fully mature 100% Blue Weber Agave.
- Hand-harvested by skilled jimadors.
- Results in a rounder, sweeter, full-flavored tequila.

## BRICK OVEN ROASTING

- Our ovens are smaller (24 ton vs. 50+ ton industry average) and are made the traditional way using brick, stone, and cement.
- By cooking at a lower temperature over a longer period (72 hours), it softens the agave fibers and prevents them from over-caramelizing.
- The Result: Increases the amount of sugars available when the juice is expressed and brings out Teremana's light citrus notes.

## COPPER POT DISTILLATION

- Double distilled using only small, handmade 100% copper pot stills (3,800-liter vs. ~5,000-liter industry average).
- Copper helps to remove sulfur-based compounds and preserves the delicate agave flavors, resulting in a smoother, more refined tequila.
- Our extremely slow distillation process helps to retain more of the agave flavor, depth and character.
- Lower proof distillation helps keep natural flavors intact.

## TASTE

**Teremana Blanco:** Notes of bright citrus with a smooth, fresh finish.

**Teremana Reposado:** Notes of oak and vanilla with a smooth, rich finish. Aged for 2+ months.

**Teremana Añejo:** Notes of rich warm oak, vanilla and roasted agave with a lightly sweet and complex finish. Aged for 12+ months.
