

Strawberry Honeyberry Vodka Lemonade

DESCRIPTION

Inspired by visits to Sam's Friend's Honeyberry Farm up in coastal Maine, we made a unique take on a Vodka Lemonade that's both refreshing and full of flavor. For unparalleled flavor, we distill our vodka over real honeyberries and blend macerated Strawberries, then top with a house-made Lemonade recipe. The triangulation of these three complementary fruits makes for a cocktail of unparalleled distinction.

...and what's a honeyberry you ask? It's a unique berry similar in size & color to blueberries, but its flavor is reminiscent of blackberry, cherry and even grape or kiwi. With a very thin skin, these zesty berries melt in your mouth! (and make a great vodka lemonade)
