

EMPRESS  
1908

## INDIGO GIN

Distilled in copper-pot stills, Empress 1908 Gin contains eight signature botanicals, including exotic butterfly pea blossom, discovered in a tea blend served at the Empress Hotel in Victoria, B.C. These blossoms impart a warm herbal earthiness, soft texture, and deep indigo colour. Explore a new aesthetic of extra-sensory, extra-sensational cocktails. The moment of creation is at hand.

## OUR UNIQUE BOTANICALS

Empress 1908 Indigo Gin's distinct flavour profile is a result of the fine balance of 8 natural botanicals. On top of traditional elements, we add a signature blend of black tea served at the Empress Hotel and butterfly pea blossom, an exotic herb that balances the traditional citrus notes of gin with a warm herbal earthiness, and gives the gin its natural indigo colour.
