

2XO AMERICAN OAK

- The Oak Series uses a unique technique of infusing carefully selected oak elements as a flavoring element.
- Taking our 4-5 YO liquid and enhancing the flavor profile using different sleeves of charred oak to enhance the flavor and change the nuances of the barrels.
- Innovative double oak technique where Dixon introduces additional charred oak to barrels with a moderate amount of rye in the mash bill.
- He intensifies the maturation process by creating more surface area for the liquid in the barrels to interact with the new charred oak, elevating the combination of flavors.

WHY 2XO

- The Ultra-Premium (\$45-\$99) and Luxury (\$100+) segments of American Whiskey are growing at a combined 20%, more than overall category growth (8%).
- Dixon Dedman resurrected his great grandfather's bourbon (Kentucky Owl) and now is pioneering in the American Whiskey space with creative blends and styles with 2XO.
- 2XO, meaning Two Times Oak, is the blending process Dixon pioneered where every 2XO expression has additional oak exposure.
- Only brand with double oak exposure across every expression.
- Two proprietary KSBW mash bills – 18% moderate rye and 35% high rye.
