

- Noteworthy Butterscotch Bourbon

- Straight forward Butterscotch flavor with a bourbon kick at the end – tastes just like the candy pictured on the label.
- We use Bourbon as our base – other flavored items use regular whiskey – the bourbon base gives it additional flavor
- Best straight out of the freezer, but also very mixable – try it with Irish Cream or even Coke (coke and Noteworthy taste like a Bottle Cap candy)

- Kentucky 10

- 92 points Gold rated
- Wheated bourbon – 70% corn, 21% wheat and 9% malted barley
- Made at the 10<sup>th</sup> oldest distillery in Kentucky – DSP10 – Green River Distilling company – that is where the “10” comes from in Kentucky 10
- Served best neat or on the rocks but very mixable in an Old Fashioned
