

CRANE LAKE®

— ESTD · 1994 —

FAMILY-OWNED VINEYARDS

Crane Lake wines are inspired by nature and the annual migration of the sandhill cranes to our California vineyards. Their return is the constant reminder of our stewardship of land to sustainably grow quality grapes for our exceptional wines. When searching for wines that are created with the utmost respect for the land look no further than Crane Lake.

WINEMAKER

A Northern California native, Emily DuBoce graduated from CSU Stanislaus in Biology and studied winemaking at UC Davis. With over 15 years winemaking experience, Emily knows that great wine begins in the vineyard. With access to our family's 17,000 acres of California sustainably grown grapes, she crafts Crane Lake's exceptional blends, ensuring consistent quality. She strives to make wines for each unique palate & believes there is a wine for everyone.
