SEÑORITA FAQ

• Why is Señorita superior to other THC drinks?

- The taste! In a sea of thousands of options in THC drinks, GTI has done extensive research (tested hundreds!) and this is the best tasting one out there.
- Our craftsmanship. Señorita undergoes rigorous and systematic testing to earn consumers' trust—what's on the can is exactly what you're tasting. Every step of the production process is meticulously regulated, setting a higher standard than most products on the market.

• Is the hemp Delta 9 or Delta 8? And what is the difference?

- Señorita is made from Delta 9 Hemp-Derived THC (HD9). Delta 9 is the same THC molecule you'd find in the dispensary, but since it comes from the hemp plant, it is federally legal
- Delta 8 has less psychoactive properties and a more muted high

• Who makes it?

- Señorita is made by world class winemakers Joel Gott and Charles Bieler.

• Is Señorita an Indica or Sativa?

- It is Sativa-leaning, made with Sativa Terpenes to replicate the fun, uplifting effects of Sativa.
