About Us

Our winery makes award winning wines for both our Silver Hawk Vineyards and fifty other wine brands in the Paso Robles wine making district. We are winemakers, first and foremost. We just happen to enjoy a nice cannabis mellow now and again. We thought "What could be better than to enjoy the two together?" That (and our mad scientist) is how Sangria 420 came to be. We have enjoyed this combination many times with friends and family, at restaurants and out of doors. Now we want to share with you, your friends and your families.

Cheers! and Salud!

Why Silver Hawk

We are winemakers. Period.

You may have tried "weed wine" in the past and that is how it tasted, like weed in wine. At Silver Hawk, we make internationally acclaimed wine, enjoyed both here at home and around the world. Our winemakers/chemists have broken the magic barrier to extract the alcohol and retain the taste of our award-winning wines.

The next magic happens when we infuse our now nonalcoholic wine with odorless and tasteless THC. The alchemy ends with a superb tasting beverage that has all the enjoyment of your favorite wine with none of the health detriments of alcohol and all the health and social aspects of the cannabis plant.

Cannabis is social again.

Enjoying cannabis used to be something you could enjoy with your friends, but smoking got to be a bad thing. Then came edibles, but that seems to be something people do in the bathroom by themselves. Now you can enjoy cannabis in a social environment!

NICE MELLOW WITH FRIENDS**
