

organic • additive free • sustainable

# simple in spirit™

Authentico is everything you want in a tequila, and nothing you don't.

Made with agave, yeast, and water. And that's it. Additive-free, certified USDA Organic, and produced with solar power.

In an era of skyrocketing tequila prices, Authentico is high quality without a ridiculous price.

Every drop is made at Tequilas Del Señor in Guadalajara, Jalisco, Mexico. (NOM 1124)

TDS is among the oldest continuously operating tequila distilleries, and the family owners have made exceptional tequila for over 80 years for the Mexico and European markets.

Now, with Authentico, a new tequila is available in the United States.

## TASTING NOTES:

The nose is herbaceous and fruity, with citrus and cooked agave sitting in front of mint and black pepper. The palate leads with cooked agave, as dried orange, mint tea, and peppercorns support. The finish is pleasant and warm with sweet and spice fading together.
