INFUSIÓN DE VAINILLA

There Is Nothing Else Like It

TRULY UNIQUE

From the Rarest Tequila on Earth comes the Most Delicious Tequila on Earth. Never before in the history of distilling has there been offered a naturally infused vanilla tequila. Made using a family recipe dating back to 1835 we use just two ingredients - wild, organic Blue Weber Agave and volcanic mountain spring water - to create the purest, cleanest, additive-free Blanco ever made. We then add three Grade A organic Madagascar vanilla beans to each bottle, where they will infuse the tequila for 3 months.

KEY SELLING POINTS

This tequila presents a never-before seen, unique offering. Accounts and customers alike will enjoy experimenting with variations on the "Vanilla-Tini" and other mixed drinks that can be crafted using this exciting new tequila, each recipe delicious than the last. This completely additive-free tequila can be enjoyed neat or on the rocks where its pure agave character and the luxurious aroma of the world's finest vanilla combine to make it an otherworldly experience, once reserved as the libation of the gods, now available to all of us.

Bartenders and Influencers everywhere will be invited to compete in our well-incentivized "World's Best VanillaTini" competitions. See your Supplier Rep for details.

TASTING NOTES

Palate: First sip imparts notes of clean agave, immediately followed by balanced and complex vanilla, with echoes of star anise, orange peel and cinnamon fudge. The oils residing in the vanilla pod render a mouth feel that is silk-like and buttery.

Finish: The experience closes with essences of fleshy agave, rich, deep and dimensional vanilla, aromatic clove, orange zest and toasted caramel.

Color: Medium gold

MADAGASCAR VANILLA
