

Tradicional® Silver is 100% blue agave silver tequila. It is irresistibly refined. When bottled, a special process is used to conserve its flavor and finish at freezing temperatures. This means that it can, and should, be kept chilled in the freezer and served as a crisp, smooth, frozen shot.

Tradicional® Reposado is 100% blue agave rested tequila. It has been aged in oak barrels for a minimum of two months, giving it the smooth and subtle complexity that aficionados seek. Tradicional is the original Cuervo® tequila, and it is still the number one premium tequila in Mexico.\*
