

LUPONIC DISTORTION

An ever-evolving mix of experimental hops, designed to deliver mind-blowing flavors that break the rules with each new release. The unique revolution number on the label tells you which release you have in hand. Crack fresh and enjoy the show.

Luponik Distortion Revolution No. 001 features a blend of six different hop cultivars from the 2015 harvest, with an emphasis on a zesty tropical fruit-driven experimental hop to create something entirely unique. A wheat malt base provides a clean canvas for showcasing a pure hop character. Aromas of pineapple, papaya and citrus creamsicle explode out of the glass. Resinous undertones yield to flavors of candied mango, red grapefruit zest and fresh green tea, all dissipating quickly into a clean, dry finish.

LUPONIC DISTORTION IS BEST IF ENJOYED WITHIN 90 DAYS OF ITS BOTTLING DATE.
