

Hangar 1[®]

VODKA

HANGAR 1 VODKA WAS BORN IN NORTHERN CALIFORNIA, INSPIRED BY THE ABUNDANCE OF LOCAL FARMS AND FRESH INGREDIENTS.

FARM to HANGAR

STRAIGHT VODKA

We couldn't seem to find a straight vodka we truly liked. Some were harsh; all of them lacked depth. We knew we had to find a way to make a straight vodka our way – using the best ingredients. Our Head Distiller works with specialist growers to source fruit at the peak of ripeness. Fine California grapes are blended with Midwestern grains to make a perfectly balanced straight vodka with a slightly fruity note.

ON THE NOSE:

Fresh and slightly floral. Asian pear and hints of honeysuckle.

ON THE PALATE:

Round and smooth mouth feel with hints of sweetness. Light perfume on the finish, dries quickly on the palate.

SIZES:

50ml, 375ml, 750ml, 1L, 1.75ml

MANDARIN BLOSSOM®

We fell in love with the aroma of California's mandarin orange trees, but when we tried distilling the fruit, the acids in the juice wouldn't cooperate. After plenty of late nights tinkering around in our hangar, we decided: let's try the flowers instead! The result is more than worth it – a beautiful, aromatic vodka that is bright, clean and packed with citrus.

ON THE NOSE:

Bright, warm and fresh, with candied citrus peel, fresh juice, and a delicate floral aroma.

ON THE PALATE:

Fresh citrus, wildflower honey and rosewater, with a sweet pronounced satsuma finish.

SIZES:

750ml, 1L

BUDDHA'S HAND CITRON™

Buddha's hand citron is the ancient relative of the modern lemon. The flavors and aromas of Buddha's Hand run deep, mingling notes of jasmine, basil and apricot. Its acid bite is milder than a standard lemon, allowing these secondary flavors to take center stage, and dance a ballet on your palate. The lemon extracts in other vodkas give you a single note. Our Buddha's Hand plays the whole symphony.

ON THE NOSE:

Lemon peel, grapefruit, citrus pith, lemon balm, with a hint of ginger.

ON THE PALATE:

Big, sweet and juicy at the front with jasmine, basil and apricot notes, then dissipates quickly into a light ginger, lemon, grassy finish.

SIZES:

750ml, 1L

MAKRUT LIME

Lime can be very temperamental and difficult to distill, so we are very particular with the type of lime that goes into making our vodka. Enter the makrut lime – the Thais use this citrus because of its high aromatic oil content and bold flavor. We use the lime leaves which for us holds the most flavor and aroma and the resulting spirit is nothing like we have ever tasted – unmistakably lime and endlessly complex.

ON THE NOSE:

Tart and bright, with lemongrass, ginger and a strong lime character.

ON THE PALATE:

Sweet, slightly dry with immediate bold lime notes followed by hints of eucalyptus, wood, white pepper and cucumber, and a lingering dry finish.

SIZES:

750ml, 1L
