#HopSun

Make Hop Sun part of your summer survival kit, and no amount of heat or humidity will get you down. This **summer thirst-quencher** is not your average wheat ale. **Light and slightly dry**, it is the addition of fresh hop flowers after fermentation that adds a necessary kick on a hot summer day. Hop Sun is **mild enough to be a refreshing summer offering**, but has just enough of a hop profile to keep your taste buds tingling for another sip. Wheat, barley, and hops coalesce in this superb **session ale**, a telltale symbol of fun in the sun. **Summer never tasted so good.**

- STYLE:** Summer Wheat Ale
