Distributor's notes

Family first because you built it. Business first because you built it. Fortune first because you built it. The best in life because you take it. And when you take your bourbon, you take it from Kentucky because you want it mature, with hints of vanilla, oak sweetness, and a touch of orange.

About the producer

Family first because you built it. Business first because you built it. Fortune first because you built it. The best in life because you take it. And when you take your bourbon, you take it from Kentucky because you want it mature, with hints of vanilla, oak sweetness, and a touch of orange.

It's the only bourbon that's good enough to bear the name of J.R. Ewing.
