

Kerrygold Swiss Cheese

One of the reasons every Kerrygold Irish cheese tastes so distinctive is because they are each made in a unique part of Ireland. **Kerrygold Swiss** is no exception.

In the grasslands below the Rock of Cashel in County Tipperary roam some of the happiest herds of grass-fed cows in Ireland. These fields provide the richest, creamiest grass-fed cow's milk for our 100% natural Swiss Cheese.

We age our gourmet Swiss over 90 days to enhance the delicate nuances that give it its signature sweet, nutty taste.
