

MEET OUR CAREFULLY CRAFTED, FAMOUSLY FUN
YEAR ROUND BREWS.
 HORNY GOAT BREWING CO. | MILWAUKEE, WISCONSIN

We crafted this unique and refreshing IPA using four different varieties of hops to impart citrus zest, pine notes and a refreshing floral aroma. We then dry hop the beer after the boil to complement the subtle malt backbone creating a complex and balanced beer that isn't overly bitter like most IPAs on the market today.

This beer is brewed to be clean and crisp with the hops slightly edging out the malt on the taste. A generous addition of German hops will leave the finish quite dry which is accentuated by the softness on the palate given by the white wheat. Horny Blonde took Silver in the Premium Lager category at the 2012 Great International Beer Festival.

This award winning porter gets its luscious dark color from the generous use of roasted malts. We bring just the right amount of hops to the party to balance out that malt backbone and let the stars of the show shine. You will get heavy notes of chocolate and peanut butter to question whether you're drinking a glass of delicious suds or popping a peanut butter cup in your mouth.

SEASONAL BREWS.
 HORNY GOAT BREWING CO. | MILWAUKEE, WISCONSIN

We add 100% natural watermelon juice during fermentation so that all the sugar contributed is fermented off into alcohol, increasing the alcohol content while keeping the body light. The backbone of this brew is heavy on the wheat with just a touch of Vienna malt for complexity, while German hops balance the fruit perfectly. Watermelon Wheat offers an unbelievably refreshing and great tasting summer brew.

A refreshing and unique take on a traditional German style wheat beer. Laka Laka has strong banana and clove notes from the yeast, a soft mouthfeel from the high wheat content in the malt bill, and pineapple juice added post-fermentation.

It's through the myth of the goat nymph Amalthea that people first heard of the cornucopia. Horny Goat pays homage to this harvest tale with Hornacopia, a pumpkin ale brewed with real pumpkin, 2-Row malts, and Northern Brewer hops in every batch. Dark brown sugar is then added to the boil for a sweet molasses flavor. Finally, cinnamon, ginger, nutmeg, clove and allspice are infused to make this pumpkin ale truly the sweet nectar of the gods.
