

Florida's
FINEST CRAFT SPIRITS
SIESTA KEY
RUM

The Product

Siesta Key Toasted Coconut rum starts with the award-winning Siesta Key Silver rum. The coconut flavor comes 100% from an infusion of real shredded toasted coconut. No liquid “natural flavors” are used, and you can taste the difference! The toasted coconut is filtered out and you are left with a delicious toasted coconut rum that tastes like real coconut.

Siesta Key Spiced rum begins with Siesta Key Silver small-batch rum which is then infused with our own proprietary blend of spices then naturally sweetened with domestic honey. *Caribbean Journal* awarded SK Spiced the *Rummy Award* for six straight years, calling it the “*best Spiced Rum on the market*”. 100% of the spiced flavor comes from the natural spices.

Siesta Key Coffee rum begins with Siesta Key Silver small-batch rum which is then infused with real coffee beans producing a true craft Coffee Rum. This is a 70 proof RUM, NOT a liqueur, so not overly sweet. Siesta Key uses imported Columbian coffee beans which are then roasted locally and ground. The process is like that of a ‘cold press coffee’, but is of course coffee rum and produced in small batches.

Siesta Key Silver: All infused rums from Siesta Key begin with our Silver Rum. Produced from Florida Sugar Cane and first-boil molasses, this is the foundation of every great rum.
