de la costa SANGRIA

Our de la costa Sangrias are all made with fresh, bright wines that we pick out for sangria, not wines that “end up” in sangria like so many others. We blend the wine with all natural fruit flavors and spices to give complexity and depth without over complicating it. We NEVER water down our de la costa Sangria so it will stand up to your own recipe with the addition of plenty of ice, fresh fruits and even a shot of brandy or rum.

Wine blended with the essence of summer in a bottle...

This traditional Spanish drink is the toast of the summer. It is a blend of our red or white wine and citrus fruits with a touch of spice. de la costa Sangria is a part of our Fun Wine Line, that includes traditionally & culturally derived wines that are untraditionally great wines to enjoy throughout the season.

“I really liked both of them. They offer distinct fruit flavors of mandarin orange, lemon zest and just the right amount of sweetness.”

-Alpana Singh, Master Sommelier & Host of Check, Please! On WTTW
