

TABALÍ

RESERVA LIMITED EDITION

SYRAH-CARMENERE 2012

ORIGIN

This wine was made entirely from grapes from our own vineyards located in the coastal area of the Limarí Valley in the north of Chile.

VINEYARD

The vines are planted in the oldest alluvial terrace of the Limarí river. The soil profile is a mix of gravel of different sizes, clay and sand, with high concentration of active calcium carbonate (limestone). This geological condition makes the area unique in Chile in terms of soil formation and composition.

CLIMATE

The vineyards are planted 29 km from the Pacific Ocean, which has a great influence on the temperatures of the Limarí Valley due to the strong daily breezes, cooling the area and making it very suitable for grape growing. In addition, the spectacular phytosanitary conditions of the grapes because of the absence of rain during the harvest season make this area a paradise for vines and good quality grape.

PRODUCTION

From pruning to harvesting, all work done in the vineyard is completed under the careful supervision of the viticulture and winemaking team in order to produce the best quality fruit possible.

The fruit was handpicked and then placed in 20kg cases to avoid damage to the grapes. Picking started the second week of May for the syrah and the first week of June for the carmenere. The bunches were hand-sorted before going to the destemmer where the grapes were separated from the stems. After the destemmer the grapes were hand-sorted again. Fermentation took place in stainless steel tanks at a controlled temperature. Maceration was carried out after the alcoholic fermentation.

AGEING

The wine was aged for 12 months in French oak barrels.

TASTING NOTES

With a deep red violet color, the wine displays attractive dark fruit aromas with some spicy notes and mocha coffee hints. On the palate it has a rich structure and a balanced finish, with a long and pleasant aftertaste. An exquisite blend where each variety adds a lovely character to this round and luscious wine.
